

Saturdays, March 7th & 28th, 2020

1:30 - 2:30 pm

Great for everyone! ALL ages, background interests,
Homeschoolers, Farmers and Gardeners too!

SUSTAINABLE FARMING & GARDENING

(flowers & vegetables)

UConn Senior Caitlyn Lovely will incorporate sustainable ideas and systems through simple and interesting ways, that will appeal, be understood and can be applied, by people of all ages! What does Sustainable mean? In short, it is a continuous cycle, of giving back to nature and our environment, over a long period of time. She will also be teaching us how, what, and why effect this has to do on and with our “space” in relation, to this years summer reading theme. There will be a lot of fun, interesting, and educational activities, to learn and enjoy, throughout this program. Join us for one or all, of these presentations.
