We invite the community to participate in our library's very own Wish Tree. Our Wish Tree is available to anyone who would like to make a "wish" that will be represented, in the form of a ribbon. You may bring your own or we will supply one for you. You will then tie your ribbon to one of the tree's branches.

This "wish" in whatever form your heart wishes to call it, will not be written down, you will just know it in your heart and mind. You may choose to have it represent a blessing or a prayer request. Wishes could be for peace, rest, health, etc.

This tidbits of whatever you would like them to be, can represent hopes for something better. If you were to tie a Wish Tree, what would it be?

Only you know. Help fill our tree with Wish Knots. Everyone needs to hope.
